NATURE OF RELEASE

Type of Release: Crude oil and produced water	Volume of Release: 20 bbls crude oil and 115 bbls produced water.	Volume Recovered: 20 bbls crude oil and 80 bbls produced water
Source of Release: Oil production Tank	Date and Hour of Occurrence: 12/1/14 at approximately 8:00 am	Date and Hour of Discovery: 12/1/14 at approximately 12:56 p.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher NMOCD	
By Whom? Bradley Blevins	Date and Hour: 12/1/14 at 2:56 p.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

NM OIL CONSERVATION
ARTESIA DISTRICT

DEC 15 2014

Describe Cause of Problem and Remedial Action Taken.*

A water dump valve failed sending all of the water to the oil tank causing it to overflow. The dump valve was replaced.

RECEIVED

Describe Area Affected and Cleanup Action Taken.*

The spill impacted the entire surface of the dirt containment area of approximately 1500 sq. ft. the containment area is constructed with compacted caliche covered with pea gravel. All of the free standing fluid was recovered. On 12/2/14 Basin Env. used a backhoe to determine the vertical extent inside the containment area. The soil conditions were too hard to penetrate at 2.5 ft. below the surface. Plans are being made to re-locate the tank battery and continued with the excavation around the tanks. The spill area will be cleaned up in accordance to the NMOCD and BLM remediation guidelines.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
