RE: Skelly Unit #108 - Site Activities for Reclamation
Section 15, T17S R31E

Mr. Wall,

The well and caliche pad at this site have been removed. Detailed herein is a summary of seeding activities at the site by Diversified Field Service, Inc. (DFSI) following the removal of the well and caliche pad. DFSI personnel removed any and all visually stained soils to an NMOC approved facility. The caliche from the site surface was reserved for use on other Linn locations. On April 28, 2014 a total of 100 pounds of Lesser Prairie Chicken seed was broadcast over the entire area. The seed was then tilled into the soil. (See Site Photographs).

Thank you for allowing DFSI to assist you in this matter. Please call me with any questions and/or comments.

Sincerely,

Natalie Gladden
