13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

This lease makes enough production to cover all expenses plus make income for the company. It is currently making 4 plus barrels a day. I do all work and books pertaining to this lease. Also the pumping. The electric bill runs approx. \$220.00 a month. Water is disposed of on site (Injected). It is located within 3 miles of another well I operate, Therefore fuel is not an issue.

Denied

Provide Lease Operating Statements for the last 12 months. Separate sundries for each well.
