If a Watercourse was Impacted, Describe Fully.*

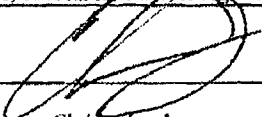

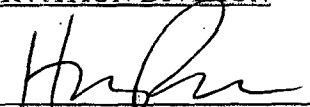

Describe Cause of Problem and Remedial Action Taken.*

Nipple coming off of the tank battery formed a leak. The well was shut in, tank taken out of service, and emptied. A vacuum truck was called to pick up the remaining fluid left on the ground.

Describe Area Affected and Cleanup Action Taken.*

The area affected was inside the dikes around the tanks and approximately 60 feet into the pasture. Remediation was completed in accordance with approved plans from both the NMOCD and the BLM.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
