Revised October 10, 2003

Submit 2 Copies to appropriate  
District Office in accordance  
with Rule 116 on back  
side of form

**Release Notification and Corrective Action**

**OPERATOR**

Initial Report  Final Report

Name of Company	Apache Corp.	Contact	Bruce Baker
Address	PO BOX 1849, Eunice, NM 88231	Telephone No.	(432) 631-6982
Facility Name	Tony Federal Battery (nearest well #1)	Facility Type	Production Facility
Surface Owner	BLM	Mineral Owner	BLM
		API No.	30-015-30382

**LOCATION OF RELEASE**

Unit Letter	Section	Township	Range	Feet from the	North/South Line	Feet from the	East/West Line	County
Lot 4	18	17S	31E	990	FSL	330	FWL	Eddy

Latitude \_\_\_\_\_ Longitude \_\_\_\_\_

**NATURE OF RELEASE**

Type of Release	Oil	Volume of Release	35 bbls	Volume Recovered	30 bbls
Source of Release	Water Tank	Date and Hour of Occurrence	11/24/12	Date and Hour of Discovery	11/24/12
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Amos/Leking		
By Whom?	Natalie Gladden	Date and Hour	11/26/12 612 am	<b>RECEIVED</b> SEP 25 2013 NMOCD ARTESIA	
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			
If a Watercourse was Impacted, Describe Fully.*					

Describe Cause of Problem and Remedial Action Taken.\*  
The transmitter that operates the SWD pumps failed. The pumps did not kick on which high leveled the water tank, which caused the water to go into the oil tank. Fluid was recovered from inside the bermed area.

Describe Area Affected and Cleanup Action Taken.\*  
The leak affected the 1,370 square feet of caliche within the bermed facility. Impacted soils were removed to a NMOCD approved disposal facility. A representative composite soil sample was collected from the excavation floor and sent to a commercial laboratory for confirmation of chloride and TPH. The excavation was backfilled with clean caliche, and the site was leveled.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
