**NATURE OF RELEASE**

Type of Release: Produced water	Volume of Release: 269 bbls	Volume Recovered: 200 bbls
Source of Release: 4" poly line	Date and Hour of Occurrence: 4/26/15 At approximately 10:00 p.m.	Date and Hour of Discovery: 4/27/15 at approximately 10:12 a.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? NMOCD, Heather Patterson	
By Whom? Tony Savoie	Date and Hour: 4/27/15 at 10:25 a.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

An un-authorized person cut, removed seals and opened a normally closed valve connected to an open ended 4" poly line. This line had been used to supply water to PW frac operations in the area. The SCADA trend recorder showed the PW pump was operating with normal on-off cycles until shortly before 10 p.m. There were no BOPCO employees working in the area at this time. The line was removed and the connections were plugged.

Describe Area Affected and Cleanup Action Taken.\*

The spill impacted nearly the entire area of the earthen containment around the process area. Approximately 11,000 sq.ft. All of the free standing fluid was recovered with a vacuum truck. The release is still under investigation by BOPCO, the area was left as is pending the on-going investigation. This is in the same area as a recent spill dated 4/19/15. The impacted soil will be cleaned up in accordance to the NMOCD and BLM remediation guidelines.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
