13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Bass Enterprises Production Company respectfully request permission to deviate from the APD stipulation for the Poker Lake Unit # 237 requiring any permanent equipment installed on location be no taller than 8'. Bass proposes to install a smaller 320 pumping unit which will stand approximately 25' tall instead of the 640 and 912 pumping units that we typically use which are in excess of 40' tall. Newly developed motor controllers will be used in order to lift the volume of fluids required with the smaller pumping units. No other means are economically available to effectively pump these wells from the depth of the formations produced.

14. I hereby certify that the foregoing is true and correct
 Name (Printed/Typed)

Cindi Goodman
