**RE: REMEDIATION WORK PLAN - BEU #56 SWD AND INDIAN FLATS
BASS FEDERAL BATTERY #1**

Dear Mr. Beadle,

I am writing this letter in response to the letters sent to Bass Enterprises regarding remediation work plans for BEU #56 SWD and Indian Flats Bass Federal Battery #1. Bass Enterprises has recently asked the S. M. Stoller Corporation, a world wide environmental remediation company, to support them in the development of the remediation work plans requested by your office. Since Stoller has only recently been engaged in this process for Bass Enterprises, Mr. Mike Waygood of Bass Enterprises has asked that we submit this letter requesting a two week extension on the deadline for the remediation plans.

Thank you for your consideration of this matter, and I look forward to hearing from you soon.

Donald L. George
Assistant Vice President
