LETTER OF VIOLATION - Inspection

Dear Operator:

The following inspection(s) indicate that the well, equipment, location or operational status of the well(s) failed to meet standards of the New Mexico Oil Conservation Division as described in the detail section below. To comply with standards imposed by Rules and Regulations of the Division, corrective action must be taken immediately and the situation brought into compliance. The detail section indicates preliminary findings and/or probable nature of the violation. This determination is based on an inspection of your well or facility by an inspector employed by the Oil Conservation Division on the date(s) indicated.

Please notify the proper district office of the Division, in writing, of the date corrective actions are scheduled to be made so that arrangements can be made to reinspect the well and/or facility.

INSPECTION DETAIL SECTION

FANNING No.001				K-4-19S-26E	30-015-20920-00-00	
Inspection Date	Type Inspection	Inspector	Violation?	*Significant Non-Compliance?	Corrective Action Due By:	Inspection No.
03/02/2006	Routine/Periodic	Mike Bratcher	Yes	No	4/3/2006	iMLB0606139792
Violations						
Surface Leaks/Spills						
Comments on Inspection:						
North end of tank battery appears to be oil saturated. Oil is pooled in several areas. New line installation is in progress on South end of battery. Area on west side of battery out on location appears to be heavily impacted with chlorides. Please submit a form C-141 reporting the releases that have occurred at this site, along with a work plan proposal for remediation of contaminants. The work plan should be formulated using the OCD publication, "Guidelines For Remediation of Leaks, Spills, and Releases". This publication may be found on the OCD website as follows: www.emnrd.state.nm.us/oed Click on Publications/Environmental Handbook/Miscellaneous Guidelines/Spill Prevention Clean-up. Please submit this information prior to April 3, 2006, or contact me to schedule a meeting to discuss this matter.						

In the event that a satisfactory response is not received to this letter of direction by the "Corrective Action Due By:" date shown above, further enforcement will occur. Such enforcement may include this office applying to the Division for an order summoning you to a hearing before a Division Examiner in Santa Fe to show cause why you should not be ordered to permanently plug and abandon this well. Such a hearing may result in imposition of CIVIL PENALTIES for your violation of OCD rules.

Sincerely,

Artesia OCD District Office

Note: Information in Detail Section comes directly from field inspector data entries - not all blanks will contain data.

*Significant Non-Compliance events are reported directly to the EPA, Region VI, Dallas, Texas.
