13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Lime Rock would like to build this well's tank battery on its well pad. The entire location will be earthen bermed, and the tank battery containment will hold 1.5 times the volume of all vessels in the containment. There will be no interim remediation due to the tank battery. BLM Natural Resource Specialist, Indra Dahal, has agreed to this plan. As requested by Mr. Dahal, the surface plan (page #4 from the APD) has been attached to this sundry.
