| Was a Watercourse Reached?  | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No                                       | If YES, Volume Impacting the Watercourse | N/A  |                            |                    |

If a Watercourse was Impacted, Describe Fully.\* N/A

Describe Cause of Problem and Remedial Action Taken.\*

The Lact unit pump housing broke resulting in a release from the Lact unit. The tank load line valves were immediately shut down to prevent further release.

Describe Area Affected and Cleanup Action Taken.\*

180 BBLS of oil was released from the Lact unit onto location. The approximate area affected was 150ft x 75ft East of the Lact unit. All 180 BBLS oil released remained on location. None of the released fluid left location. Vacuum truck recovered approximately 175 BBLS of the released oil. Environmental Agency, Talon Lpe was contacted and has developed a work plan.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
