Oil mist from gas vent, gas venting due to high line pressure. Various small flowline leaks, minor stuffing box leaks and engine oil.

Describe Area Affected and Cleanup Action Taken.*

All leaks appear minor and only effecting surface. No samples have been take or tested at this time. May plug well and do final clean up of entire location. Will advise. If continue to produce, effected areas will be cleaned up according to OCD rules.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
