13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well was shut in on 11/03/2015. COG requests permission to leave this well shut in for a period of one year. The well is shut in due to DCP's inability to transport because of Transwestern's pipeline being shut in for repairs. It is anticipated that these repairs will be completed within one year.

**Shut-in of Well on Federal Lands
Conditions of Approval**

COG Operating LLC
Save D A 21 Federal 1
3001534840, Lease-NM96848

As per your Sundry request the above well is Shut-in (SI). The Bureau of Land Management (BLM) definition of a shut-in well is a completion that is physically and mechanically capable of production in paying quantities or capable of service use. 43 CFR 3162.3-4 (C) requires that wells incapable of production in paying quantities be promptly plugged and abandoned and requires approval for any well temporarily abandoned for more than 30 days.

Your Sundry Notice is being APPROVED.

Approved for 12 month period ending 6/22/2017

43 CFR 3162.4-1(c) also requires you to notify the Authorized officer, not later than the fifth business day after production is resumed for any well which has been off production for more than 90 days, the date on which such production was resumed.

1. Submit Sundry Notice within 5 days of well-being placed back on production.
2. If well is requested to be shut-in over the approved time, an additional request will be required to be submitted and a minimum 500 psi MIT will be required to be ran.
