13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Read & Stevens, Inc. is requesting a 90 day extension to the existing Temporary Abandon status currently in effect. The purpose of the request is that we have spent the past year in discussing with our natural gas transporter/marketer and feel that we may have come to terms on a contractual relationship that may make the Toles Federal #1 commercial again.

Therefore, we are requesting additional time in order to present to the Working Interest Owners of the well the opportunity to participate with us in the re-work of the well as is proposed with the data describing the work and strips of the well logs that is attached to this Sundry Notice. The goal is to isolate the existing perforations and production by plugging back and coming up the hole to the Atoka 8695 to 8699 and the Penn 7640 to 7649. Should we be commercially unsuccessful with the above-described additional perforations, we would set a bridge plug above those perforations and come up the hole to 7705 to 7720 and attempt a completion at that point.

In addition to the time for noticing the Working Interest Owners, we need additional time to coordinate and rally the vendors. We anticipate being complete with our attempts on or before December 15, 2016.

TA extended to January 1, 2017
