Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

COG Operating LLC respectfully requests to change the first string of the production casing program as follows:

8.75" hole - Casing Interval: 0'-4279'MD - 7" casing size, 29#, L80, LTC, 3.17 collapse, 1.33 burst, 2.25 tension.

The reason for this change is to allow for the installation of larger pumping equipment. All other aspects of the drilling program will remain the same.
