13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Attn: Mr. Michael Balliett

RKI Exploration and Production, LLC would like to do off-lease measurement following up from your e-mail dated June 20, 2016.

The RDX 15-14 (NMNM102036) is separate then the RDX 15-15 (NMNM 100558), RDX 15-12 (NMNM100558), and RDX 15-16 (NMNM100558)(since it is a separate lease number). Please find an aerial map attached with details.

RKI Exploration and Production, LLC is separating out production and not commingling

Attached to the sundry is a new site facility diagram showing federal measurement points for both

RDX 15-15 & RDX 15-14 to be P&A'd per Ashlee Fechino 9/18/17

14. I hereby certify that the foregoing is true and correct. Electronic Submission #350529 verified by the BLM Well Information System For RKI EXPLORATION & PROD LLC, sent to the Carlsbad Committed to AFMSS for processing by DEBORAH MCKINNEY on 09/09/2016 (16DLM0896SE)

UNIT 1 SEC. 15-7265-R02

EDDY COUNTY, NEW MEXICO

General setting of valves, sales by tank gauge.

Production Phase: Sales valves S1 through S3 sealed closed. Fill valve to tank that is in production will be open. Equalizer valve to tank that is in production will be open. Circulating valves will be opened on necessary, then released.

Sales Phase: The tank from which sales are being made will be isolated by sealing closed the fill valve, circulating valve and the equalizer valve during sales and released. Sales by truck will be by tank gauge.

Off-Lease Measurement and Sales Conditions of Approval

Approval of off-lease measurement is subject to the following conditions of approval:

1. This agency shall be notified of any change in sales method or location of the Sales point.
2. This agency shall be notified of any spill or discharge as required by NTL-3A. No gas may be vented/flared without proper measurement and prior approval. Any gas vented must be flared.
3. This agency reserves the right to modify or rescind approval whenever it determines continued use of the approved method may adversely affect the surface or subsurface environments and/or product accountability.
4. This approval is subject to like approval by the New Mexico Oil Conservation Division.
5. Additional wells and/or leases require additional approvals.
6. This approval does not constitute right-of-way approval for any off-lease activities. Within 30 days, an application for right-of-way approval must be submitted to the Realty Section if not already done.
7. Approval for off-lease from various sources is a privilege which is granted to lessees/operators for the purpose of aiding conservation and extending the economic life of leases. Applicants should be cognizant that failure to operate in accordance with the provisions outlined in the Authorized Officer's conditions of approval and/or subsequent stipulations or modifications will subject such approval to revocation.
8. Production measurement must comply with all Federal Regulations, API, and AGA standards.
