13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Work will commence upon the Fracing and completion of the well.

RC 7-6-17  
Accepted for record - NMOC

This request is completely encompassed within the area of the Cedar Lake Super Com CA-134086. The original APD was approved with a proposed bury pipeline from the existing Drill Pad 14E in Section 5-T17S-R31E, NMPM Eddy County, NM; and to proceed approximately 213? feet in a southwesterly direction to an existing buried pipeline within an existing disturbed area.

An on-site inspection was conducted with Jeff Robertson and Apache personnel in this area on February 5, 2015. Based on the expectations of production flow, Apache is requesting to install a 3-1/2? inch high-pressure fiberglass line (from Pad 14E located Section 5-T17S-R31E to the Satellite Pad 12 located in Section 6-T17S-R31E, NMPM Eddy County, NM). The total length of the buried pipeline will be approximately 1,600? feet and will be installed along existing road(s) and
