13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

This well was Plugged and Abandoned on 7/6/16 however it shares a pad with the Gissler B 111 ( API# 30-015-42312). The Gissler B 111 was completed on 3/22/17 however we have additional completion work to perform. Because of the additional completion work, we are requesting a variance on the Interim Reclamation in the Gissler B 10 P & A Sundry until the new well has been completed.

*BC 12-20-17  
Accepted for record - NMOCD*

*Final Abandonment: All Reclamation (Abd and Interim) will take place under the Gissler B 111.*

14. I hereby certify that the foregoing is true and correct.
