13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Mewbourne Oil Company, request approval for off lease measurement

Bradley 29 Fed Com #3H Sec29, NESE, T18S R30E 30-015-38336

APPLICATION FOR, OFF LEASE MEASUREMENT

Proposal for Bradley 29 Fed Com 3HMewbourne Oil Company, is requesting approval for the Off Lease Measurement, & Off Agreement Sales of oil & natural gas.

Federal Com- NMNM128922 all associated leases carry a 12.5% royalty rate

Well name	Location	API#	Pool	Oil BOPD	Gravities	MCFPD	BTU
Bradley 29 Fed Com 3H	Sec 29, NESE T18SR30E	3001538336	54600 Santo Nino Bone Springs	19	40.4	41	1228

Oil & Gas metering:

The Bradley 29 Fed Com #3H's oil water & gas will be pumped to a collocated facility at the Bradley 29 Fed Com #1 pad (see attached map) . Oil volumes for the Bradley 29 Fed Com #3H will be determined using the tank gauge method. The gas will be measured using MOC meter 52702. The metering will be located on the same pad as the Bradley 29 Fed Com #1H battery. These co-located facilities remain separate at all times with no possible way to accidently commingle oil or gas.

Process and Flow Descriptions:

The flow of the produced fluids is shown in detail in the attached facility diagram. Both wells co-located on this pad retain separate equipment and oil tanks. This will prevent any improper commingling of hydrocarbons or allocation issues. Gas is measured on the Bradley 29 Fed Com #1H pad (MOC meter 52702) & is also properly separated in order to prevent commingling. Oil is separated & stored in a separate 500 bbl oil tank than the Bradley 29-1H. Oil is sold on location using the tank gauge method.

**Off-Lease Storage, Measurement and Sales of production
Conditions of Approval**

**Mewbourne Oil Company
Bradley 29 Fed Com 3H, 3001538336
NMNM27280**

Approval of off-lease measurement is subject to the following conditions of approval:

1. This agency shall be notified of any change in sales method or location of the Sales point.
2. This agency shall be notified of any spill or discharge as required by NTL-3A. No gas may be vented/flared without proper measurement and prior approval. Any gas vented must be flared.
3. This agency reserves the right to modify or rescind approval whenever it determines continued use of the approved method may adversely affect the surface or subsurface environments and/or product accountability.
4. This approval is subject to like approval by the New Mexico Oil Conservation Division.
5. Additional wells require additional approvals.
6. This approval does not constitute right-of-way approval for any off-lease/Unit activities. Within 30 days, an application for right-of-way approval must be submitted to the Realty Section if not already done.
7. Approval for off-lease/Unit from various sources is a privilege which is granted to lessees/operators for the purpose of aiding conservation and extending the economic life of leases. Applicants should be cognizant that failure to operate in accordance with the provisions outlined in the Authorized Officer's conditions of approval and/or subsequent stipulations or modifications will subject such approval to revocation.
