12. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

This well was temporarily abandoned in 1984 by Anadarko. A CIBP was set @ 2450' (50' above perms). The hole was circulated with chemical and fresh water. The casing was tested to 600# and held good. A tubing sub with valve on top was left in wellhead.

Since the company has just recently acquired this wellbore, CBS requests that temporarily abandonment status be granted for this well pending a new pressure test for a period of one year to allow CBS to evaluate the potential utility of this wellbore.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
