Artesia, New Mexico 88210  
Attn: Mr. Bryan Arrant

Dear Mr. Arrant:

I researched the gas production in the E. G. L. Resources, Inc. operated Upper and Lower Morrow Rock Tank Field area and have found no evidence of H<sub>2</sub>S present in this area. I reviewed the Duke Energy Field Service wellhead settlement statements as my source of information. The proposed well is not located near a public area or near a public road and does not present a risk that a Potentially Hazardous Volume of H<sub>2</sub>S will be released.

Thank you for calling regarding this matter and please contact me if you need any additional information.

Sincerely,

John A. Langhoff  
Petroleum Engineer  
E.G.L. Resources, Inc.
