13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Percussion Petroleum Operating, LLC respectfully requests a Shut-In status be assigned to the Lakewood Federal 1 API# 3001524231 for a period of 9 months until 10/1/2019. The Company anticipates additional on lease drilling activity within the proposed 9 month timeperiod and the planned, subsequent completion procedures will allow production in the Lakewood Federal 1 to be economically re-established.

Should the new planned drilling activity be unsuccessful, Percussion Petroleum will immediately initiate activity to either restore the well to a producing condition or proceed to permanently abandon the well.
