Fasken Oil and Ranch, Ltd. had an approved flare permit for this well through May 16, 2019. I was just made aware that we are still flaring. Pipeline has a hole in it, and it is just not economic to repair for the small amount of gas the well makes nor is there another pipeline we can take the gas to. We want to go ahead and get the 180 day permit which would expire November 11, 2019. Well is flaring .15 MCFPD.
