13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

On October 3, 2019, a gasket failure occurred on the facility's heater treater unit releasing an estimated 10 BBL's of production fluids. Most of the fluids remained on location; however, a misting did occur which caused fluids to spray off site. WPX is requesting permission to access the area on the Site Figure to perform soil and vegetation remediation.
