RE: Littlefield Federal SWD #1 30-015-10259

Dear Operator:

A review of the well file on the referenced well indicates receipt of a Form 3160-5 (Federal) as a subsequent report of casing repair.

Since the State of New Mexico is the primary on all injection and Salt Water Disposal wells, any sundry notices prepared for these wells must be on (State form) C-103 with a copy to BLM, on their form 3160-5. In addition the Environmental Protection Agency requires that we have on file the original chart for the test mentioned.

In that these requirements have not been met, it is requested you furnish this office with a C-103 including a detailed description of the procedure used to prepare this well for this test and the original chart.

Sincerely,

Gerry Guye

Deputy Field Inspector

District II - Artesia
