SITE RANKING: 10 REQUESTING FINAL CLOSURE.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

RE: Boyd BN 006 API: 30 015 29501
15-T19S-R25E
Eddy County, New Mexico

Dear Mike,

As per your April 18, 2006 letter requesting an update on information, a contractor was procured to excavate below the flow line to gain access to make repairs to the underground flow line. Yates personnel has reviewed the Boyd BN 006 site, believes no further action is required, and requests final closure. Attached is the final report C 141.

Your consideration to this request is appreciated.

Respectfully,

Sherry Bonham
Environmental Regulatory Agent Trainee
