Mike,

After a physical inspection of the site and reviewing ground water data on the State Engineer's Database, I agree with the site ranking of zero (0) for the Temperate BEC Federal 001. Your request for a 6 month extension to close the drilling pit at this site is approved.

Sincerely,

Mike Bratcher

11/20/2006

Dear Mr. Mike Bratcher,

Jerry Fanning & I want to thank you for meeting with us on 11/16/2006 at the Temperate BEC Federal #1.

It was agreed during our meeting that the site ranking made by the original C-144 form for registration of the drilling pit located at the Temperate BEC Federal #1 with a site ranking of 40 was not correct. The C-144 form approved by the O.C.D. on 5/26/2006 for the closure of the drilling pit at the Temperate BEC Federal #1 with a site ranking of 0 is correct. Please grant the 6 month extension request for additional time for the closure of the drilling pit located at the Temperate BEC Federal #1 which was made by letter dated October 24, 2006.

Mike Stubblefield

11/20/2006
