Mr. Brooks,

In order to further review of your application, please resubmit NMOCD form C-101 as I need the following information:

A h2s well contingency plan that meets all the requirements of NMOCD rule 118.  
However, if in your study such a plan is not required, please submit a letter of statement.  
Information on the form such as items: 3,11,12,14, estimate 'spud date" etc. is incomplete on the form.  
In addition, the the right side edge is cut off.  
You may go to our website and copy up-to-date forms at: <http://www.emnrd.state.nm.us/ocd>

I need to have you submit NMOCD form C-102 (completely filled out).  
The pool will be Undesignated Atoka; Grayburg, Code # 3420.

As I see that a RBP is to be set, do you plan to commingle both zones if productive?  
Please call if you have any questions.

Yours truly,

***Bryan G. Arrant***
