13 Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Yates Petroleum Corporation respectfully requests permission to extend the temporary abandonment status to recompleting to the Wolfcamp zone. We are currently working on the land and operating agreement issues to recompleting wells in this area.

Upon approval of this intent, a new MIT will be performed.

ACCEPTED FOR RECORD

TA APPROVED FOR 12 MONTH PERIODENDING 12/31/08

Gerry Guye, Deputy Field Inspector
