Bryan here are the shallower tops for the referenced well. We have requested Cactus to calculate the maximum theoretical deviation based on the inclination and will forward it to you when we get it.

Thanks

Zeno

Hi Lee,

The OCD wants formation tops above the San Andres @ 2719' because we had to do 1" top jobs above that. Is there any way you could get us that information? Even if it's an estimate, that's ok...thanks!
