03/03/08 A pin hole developed in the pumping T and sprayed probably less than a barrel of fluid around well head and surrounding area. This fluid also showed there was a small gas leak around the casing. No fluid came out of the leak as fluid level is very low in this well.

03/16/08 Replaced pumping T

04/01/08 Dug down around wellhead found pinhole approximately 1 1/2 down. Installed clamp.

		Ranking Score
