Reserve Pit Closure

On April, 5 2007 Git R Done Oilfield Services Mobilized Personnel and Equipment to the location. In accordance with NMOCD instructions and guidelines, the 12 mil liner was folded over, a 20 mil cap was then placed on top. Three feet of backfill material from stockpile was then placed over the 20 mil cap. Work was completed on April 8 2007. As per NMOCD instructions no soil samples were taken, due to the depth of ground water.

We appreciate the opportunity that you have given us to perform our services, and look forward to continuing doing business with you.

Thank You,
Mark Mermis
