13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Yates Petroleum Corporation request a variance be granted for exhibit B, F. requiring 6" compacted caliche on the pad to 4" compacted caliche. Also, Yates request a variance be granted for Exhibit D #4 requiring 6" compacted caliche to 4" compacted caliche on the road. There are no caliche pits in/or close to this area. Lessening the amount of caliche required could make this action more economical to construct and not kill the prospect.
