Sirs:

An H2S Contingency Plan is not needed on the subject well due to recent analysis on Nearburg Producing Companies Ruby 30 State #1, Sec. 30-24S-29E, Eddy Co, NM, which is producing out of the Bone Spring formation. This analysis shows that no H2S is present and we do not anticipate any on the referenced.

If you have any questions or need further information, please call me at the letterhead number.

Sincerely,

Sarah Jordan
