3. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Mewbourne Oil Company has applied for and received an approved APD on the above captioned well. After further geological review, MOC would like to change the surface csg depth from 1250' to 800' *900' per operator & Jerry Fart.*

Also since this is a 2M BOPE system, MOC would like to waive the 3rd party test & use the rig equipment to test. Pressures will be recorded on

geography ?
