Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

As per meeting with BLM representative Wesley W. Ingram on October 28, 2008, CBS Operating proposes to reactivate this well to injection by March 15, 2009.

CBS has repaired and restored 7 additional injection wells in the North Square Lake Unit since acquiring these properties and increased injection capacity from a pre-acquisition rate of 10,000 BWIPM to 60,000 BWIPM.

Reactivation of the North Square Lake Unit 142 to injection is consistent with CBS' on-going efforts to enhance production at the North Square Lake Unit through increased injection.

CBS will file a detailed procedure for this work by January 15, 2009.
