- 13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BOPCO, LP respectfully requests permission to downhole commingle the production between the Nash Draw (Delaware/BS/Avalon) and the Undesignated (Bone Spring) East in this wellbore. On a sundry notice approved by the BLM on 11/28/2008, BOPCO was granted permission to temporarily zone abandon the Pierce Crossing (Bone Spring) East perforations at 8127-9147' and then to perforate the Delaware/BD/Avalon from 5965-6928'. The wellbore has been producing from the Delaware interval since early December, 2008.

BOPCO, L. P. requests permission to perforate the tailpipe of the existing packer and produce both formations simultaneously. The interest ownership is the same in both of these unitized zones.

The NMOCD has also been petitioned for approval to downhole commingle these two zones.

as of 3/26/09
