Subject: JOINT POWERS AGREEMENT ON MANAGEMENT OF THE WASTE ISOLATION PILOT
PLANT LAND WITHDRAWAL AREA, SECTION 1(G)(1)(A); TRANSMITTAL OF NON-
PROPRIETARY BOREHOLE COMPLETION REPORTS

Dear Ms. Reeves:

Enclosed are copies of daily drill reports for recently completed boreholes with surface locations within 330 feet of the Waste Isolation Pilot Plant Land Withdrawal Area (WLWA) boundary. The name of the wells are James Ranch Unit 112H and James Ranch Unit 113H completed by EOG Resources/Bass. This information is being transmitted to you per the referenced section in the Joint Powers Agreement because the surface location of these wells is within 330 feet of the WLWA boundary.

Information provided by EOG Resources/Bass for these wells indicate that the WLWA boundary was not penetrated during drilling operations.

With respect to the attached information in the attached reports, neither the U.S. Department of Energy nor its agents, representatives, or contractors makes any warranty, express or implied, concerning the accuracy or completeness of the information. Nor do they assume any legal liability or responsibility for the accuracy, completeness or usefulness of the information or represents that its use would not infringe privately owned rights.

If you have any questions concerning this matter, please contact me at (575) 234-7545.

Sincerely,

W. M. Wierzbicki, Manager
Regulatory Compliance
