NATURE OF RELEASE

Type of Release	Major	Volume of Release	285 bbls	Volume Recovered	0 bbls
Source of Release	Lightning Strike	Date and Hour of Occurrence	11 pm CDT, 7/29/2009	Date and Hour of Discovery	11 pm CDT, 7/29/2009
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Sherry Bonham, Artesia		
By Whom?	Clay Tipton, Field Supervisor	Date and Hour	11:30 pm CDT 7/29/2009		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

N/A

Describe Cause of Problem and Remedial Action Taken.* Gary Tucker, pumper, and the Loving Fire Department were both called by the landowner. Upon arriving at the location, the pumper found the location engulfed in flames. The field supervisor was immediately notified. One oil tank had been struck and blown into the air and had landed on production equipment on the site. All oil in the affected tank and one other tank was burned up. A portion of the oil stored in a third tank was transferred to our Pardue D battery (very close in proximity E-11-23S-28E and producing from the same reservoir). The remainder of the stock in the third tank was lost and destroyed by the flames. A vacuum truck was brought in. Approximately 200 bbls of produced water was recovered and taken to an approved disposal. The remainder of the water burned and/or evaporated. All of the affected area is within the firewall. A backhoe and dump truck will be brought in, as soon as weather permits, to continue cleanup. All affected topsoil/caliche will be removed and hauled to an approved disposal site. All production equipment will be replaced. No further remediation action should be necessary.

Describe Area Affected and Cleanup Action Taken.*

See above explanation

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
