---	---

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

temporary Abandoned status Approved
 Until 9/25/2010

Forest Oil is requesting TA Status on the above mentioned well.
 The Lea D is to be utilized for future beneficial purposes. A field study is in progress which will determine the purpose of the wellbore. Current options include conversion to injection to support offset producing wells or conversion to a producing well. The zones targeted for recompletion are the Grayburg and Seven Rivers. It is anticipated that product pricing will allow for an economic conversion or recompletion. The anticipated date of this work is unknown at this time, but the study will continue into the year 2010. Richard Inge of NM OCD witnessed and retained the charts of an MIT test on 8-21-2009, pressured up to 500 lbs. for 30 minutes, CIBP@3218'.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
 I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines , a general permit or an (attached) alternative OCD-approved plan .
