13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Devon Energy Production Co., LP respectfully requests approval to deviate from the original approved APD and revise the drilling program per the attached

Re: Strawberry 7 Fed #4H  
Sec 7-T19S-R31E  
Lea County, New Mexico  
API # 30-015-37258

Devon Energy would like to make the following changes to the approved drilling design for the above referred well.

1. Drill an 8 3/4" Pilot Hole to 9800'.
2. The Pilot hole will be logged, a lateral depth will be determined, cement plug will be pumped and the directional drilling program will commence.
3. The Pilot Hole will be plugged from ~8300' MD KOP to ~9000' MD. Cement volume for this plug will be ~275 sacks Class H 10% salt with 1.09 cuft/sk yield.

Devon Energy reserves the right to change the drilling procedures as the well is being drilled and will inform the Carlsbad New Mexico BLM office within 24 hours of any changes which may occur.

**Strawberry 7 Federal 4H  
30-015-37258  
Devon Energy Production Co., LP  
November 17, 2009  
Conditions of Approval**

- 1. A plug is required at the bottom of the pilot hole and is to be 200' in length. Contact BLM at 575-393-3612 prior to tag of this plug. Report tag depth on the subsequent sundry that includes the casing and cementing details. Plug can be combined with kick-off plug, which will eliminate the tag.**
- 2. If the logging indicates a different directional plan than what was approved, a new directional plan is to be submitted and approved.**
- 3. Operator is required to notify BLM prior to any changes in the drilling procedures and must receive approval prior to implementing any of those changes. Reminder – the approved APD is a contract between the BLM and Devon Energy Production Co., LP.**
