13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Mewbourne Oil Company would like to change the surface csg from 13 3/8" 48# H40 ST&C to 20" 94# K55 BT&C csg & set @ 400'. We propose to drill below the 20" csg shoe with a 12 1/4" bit & set 9 5/8" csg @ 2200'. However if hole integrity cannot be maintained, then the 12 1/4" hole will be reamed out to 17 1/2" and 13 3/8" 48# H40 ST&C csg will be run to cover problem hole interval & cemented to surface. Using off set well data, this interval should be above 1000'. We will then drill to 2200' w/12 1/4" bit and run 9 5/8" csg. We would like to change the 9 5/8" csg setting depth due to further geological review.

If you have any questions please call Frosty Lathan @ 575-393-5905.
