13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Devon Energy Production Company, LP respectfully requests permission to revise our drilling program to the following:

Re: Strawberry 7 Fed #5H
Sec 7-T19S-R31E
Lea County, New Mexico
API # 30-015-37257

Devon Energy would like to make the following changes to the approved drilling design for the above referred well.

1. Drill an 8 3/4" Pilot Hole to ~9050'.
2. The Pilot hole will be logged, a lateral depth will be determined, cement plug will be pumped and the directional drilling program will commence.
3. The Pilot Hole will be plugged from ~8200' MD KOP to ~9050' MD. Cement volume for this plug will be ~425 sacks Class H 10% salt with 1.09 cuft/sk yield.

See Original
APD COAs { Devon Energy reserves the right to change the drilling procedures as the well is being drilled and will
inform the Carlsbad New Mexico BLM office within 24 hours of any changes which may occur.
