NATURE OF RELEASE

Type of Release: Produced water and crude oil	Volume of Release: 310 Bbbls of Produced water and Less than 10 Bbbls of crude oil	Volume Recovered: 300 Bbbls
Source of Release: Pipe fitting failure on a water transfer pump	Date and Hour of Occurrence 3/9/10 Approximately 2:00 p.m.	Date and Hour of Discovery 3/9/10 4:00 p.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Sherry Bonham	
By Whom? Tony Savoie	Date and Hour 3/10/10 7:00 a.m. Left Msg. Returned call later	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* A 1/4" fitting on a water transfer pump broke off causing mostly produced water to be released. The pump was shut down and the damaged fitting was repaired.

Describe Area Affected and Cleanup Action Taken.* The facility has a Falcon BBL poly lined containment which contained most of the product released, a vacuum truck was dispatched to the location the same day and all of the free standing fluid was removed. An area measuring approximately 2,000 sq. ft. east of the site was heavily misted by the release, this area was backdragged. Another 30,000 Sq. ft. of pasture land was affected by the mist of the produced water release. This area was washed down with a nutrient and microblaze solution the following day. The Site remediation for the produced water and crude oil spill will follow the NMOCD guidelines for leaks and spills.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
