	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

To request permission to lay a temporary electric service line on the ground from an existing source (GJSAU #34) on this Federal Lease to the Jackson A #2 Tank Battery and the Jackson A#37 well. The line from the GJSAU #34 measures 1086'. Central Valley Electric Coop. has been contracted to provide the electric service for this property and has advised us they are working with the BLM for the R-O-W routing at this time. They feel this delay may take approximately 120 days, but could be a longer time. We felt it would be fiscally irresponsible and cause damage to this newly fractured well to have to shut in while having to wait for permanent electric service.

SURFACE REVIEW OK - EWR

14. I hereby certify that the foregoing is true and correct.)
