13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Yates Petroleum Corporation proposes to TA this well as follows:

Call the BLM with 24 hour notice before commencing operations.

RU safety equipment as needed. Pump 2% KCl water down tubing as needed to ND wellhead and install BOP. POOH with tubing and downhole equipment. Set 7" CIBP at 7532' and cap with 35' cement. Load hole with 2% KCl water with 1 gpt corrosion inhibitor. Pressure test casing to 500 psi and record with chart for 30 minutes. If casing fails pressure test, decide whether or not to look for holes or proceed with P&A.

14. I hereby certify that the foregoing is true and correct
