13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Due to a change of rigs to drill this well it is necessary to move the well location.

Therefore Yates' wishes to move the center hole location from 360' FNL and 680' FWL to 290' FNL and 706' FWL. This well is being drilled on the same well location as the Juniper BIP Federal #6HY and for the rig to fit around the existing well it is necessary to move the location.

The new proposed location will fit on the well pad as approved in the original APD.

Please note attached C-102.

Thank you
