If a Watercourse was Impacted, Describe Fully.*													
Describe Cause of Problem and Remedial Action Taken.*													
Oil was release out of the thief hatch on top of the oil tank due to an unexpected increase in production.													
Describe Are	a Affected a	nd Cleanup A	Action Tak	en.*									
Initially 10bbls was released from the hatch on top of the oil tank and we were able to recover all 10bbls with a vacuum truck. All of the released fluid was contained inside the dike walls of the facility, which is lined with a 40 mil liner. The contaminated soil has been removed from the facility and clean gravel will be added as necessary. We will follow up with a C-141 Final Report.
