**NATURE OF RELEASE**

Type of Release: Unauthorized Produced Water Discharge	Volume of Release: Unknown	Volume Recovered: None
Source of Release: Tanker truck which obtained the produced water from an unknown foreign source.	Date and Hour of Occurrence: Unknown	Date and Hour of Discovery: 13 October 2010 Approx. 1300 Hrs.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher	
By Whom? Cheryl Winkler	Date and Hour: Message @ Approximately 1330 Hrs.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse N/A	
If a Watercourse was Impacted, Describe Fully.* N/A		<b>RECEIVED</b> OCT 26 2010 NMOCD ARTESIA

**Describe Cause of Problem and Remedial Action Taken.\*** At an unknown date and time, a tanker truck hauling produced water from a foreign source illegally discharged its contents on both the pad area of the SWD and along the access road which eventually flowed off the roadbed into the adjacent ditch. No vacuum trucks were called because by the time the spill was discovered horizontal and vertical absorption had maximized, leaving no standing produced water on the surface. After notification to the NMOCD, plans were made to excavate the contaminated material and haul it to disposal.

**Describe Area Affected and Cleanup Action Taken.\*** Due to the fact this discharge event was discovered after soil absorption had occurred, excavation was the only realistic option. Sampling determined the level of soil chlorides exceeded regulatory limits. Once excavation had occurred this area was again sampled to verify compliance. Please refer to the *Corrective Action Plan* and *Final Remediation Report* for details.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
