13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Per our conversation w/ Bob Ballard in early December referencing his inspection of the WHLPSU on November 18, 2010 (Ref #11-BJB-000 and or #11-BJB-009).

Beach Exploration, Inc. in conjunction with cleaning up the unit area of remaining junk and surplus equipment, requests the use of the WHLPSU #16 area (central battery) for storage of spare equipment essential to the operation and maintenance of the WHLPSU. Some, but not necessarily all of the equipment, will consist of a 4 x 20 heater treater, several spare pumping units, plastic lined steel injection tubing, spare steel tubing and several strings of sucker rods. The area of storage will be neatly fenced with a minimum of 4 strand wire with cemented corner posts with equipment arranged in a neat manner. All excess junk or non essential equipment in the unit area will be disposed of or removed.

Beach Exploration, Inc. would also like to request a 60 day extension to the compliance date of December 31, 2010. With our small staff, current operational requirements and the scope of this project (construction time, equipment relocation and sale or disposal of non-essential equipment), Beach feels that we could not accomplish this prior to December 31, 2010.
